

COMP3900/9900

2023 T1

Final Demo/Presentation Assessment

❖ **Project Demonstration/Presentation** (during **Week 10 Lab Time**) (worth 20%)

Each group should prepare a **15-18 minute** presentation about the **final outcome** of the project. This should be a demonstration of the system built, which includes a presentation of other project aspects described in the demonstration/presentation marking criteria below.

Each member should **contribute** to one part of the demonstration/presentation. That is, each member must **speak** during the final demonstration/presentation.

Any member who is **absent** or **not speaking** during the demonstration/presentation receives **0 mark out of 20** for the demonstration/presentation assessment item.

Please note that UNSW community, but also outside experts (e.g., from prospective employers) may be invited to project demos.

We adopt guidelines similar to the **CSE Honours** thesis system which have been adjusted to better fit COMP3900/9900 course which is project focused.

❖ Demonstration/Presentation Marking Rubric

Category	Max Mark	Team Mark	Comments
Technical Quality and Completeness of the Project as Demonstrated (70%)	14		
Complete, fully functional, correct and coherent demonstration/presentation by all team members, covering all project objectives	6		
User interfaces are well designed and working without issues	4		
High technical quality, demonstrating excellent engineering practice, and solid methodology	4		
Structure and Delivery of the Demo/Presentation (30%)	6		
Demonstration is well prepared, and confidently and professionally delivered	2		
Demonstration is well structured with evidence of good team work	2		
Q and A handled well	1.5		
Adherence to demo/presentation time requirements	0.5		
Total Mark (out of 20)	20	0
